

# JITENDRA KUMAR

Full Stack Developer

+91-6299607595 kumarjitendra6839@gmail.com LinkedIn portfolio India

## SUMMARY

I am pursuing a Bachelor of Technology in Computer Science and Engineering and passionate about full-stack development. My experience includes deploying advanced applications using React and Node.js and mentoring new developers. I focus on building responsive, user-friendly applications that enhance performance and improve user engagement. With a strong foundation in programming and web technologies, I am committed to applying my skills to challenging and impactful projects

## EXPERIENCE

Full Stack Developer with React Native

### Technical HUB

01/2024 - 01/2025 India

A technical training institute focusing on full stack development

- Completed an advanced 1-year Full-Stack Development program at Technical HUB, acquiring in-depth experience in designing 10+ interactive web and mobile solutions using React.js and React Native
- Built and launched 5+ applications, enhancing UI responsiveness and improving performance efficiency by 30%

### C-Intern

#### Technical Hub

08/2024 - 12/2024 India

Internship program at Technical Hub

- Mentored 150+ new joiners by conducting 10+ coding sessions on data structures, debugging, and best practices in C programming

## EDUCATION

Bachelor of Technology in Computer Science and Engineering

### Aditya College of Engineering and Technology

08/2022 - 05/2026 India

Intermediate in Science

### S.S.P.Yadav College Katoria

06/2018 - 05/2020 India

+2 High School

### S.S.P.Yadav College Katoria

06/2017 - 05/2018 India

## CERTIFICATION

### Various IT Certifications

Programming Essentials in C/CPP, IT SPECIALIST in Html, Css, Javascript, IT SPECIALIST in Python, Progra001 in Java Programming Fundamentals, Basic Javascript from Hackerrank, Certification as C-intern at Technical Hub, Introduction to Cybersecurity from Cisco Networking Academy, Red Hat System Administration I (RH124), Red Hat System Administration II (RH134)

## KEY ACHIEVEMENTS

### Project Deployment and Optimization

Successfully Constructed and deployed a diverse range of full-stack applications, enhancing user engagement and operational efficiency, reflecting my strong technical prowess and problem-solving skills

## LANGUAGES

English

Proficient

Hindi

Native

## SKILLS

Bootstrap, C/C++, TypeScript, HTML, Data Structures, Express.js, Red Hat, GitHub, Java, JavaScript, MongoDB, Next.js, Python, React, React Native, REST, SQL, CSS, Tailwind, Node.js

## PROJECTS

### Blog Website

07/2025 - Present Online

https://pageengineer.com/

A personal blog platform that supports multiple types of content

- Built a full-stack blog platform with Next.js, TypeScript & Node.js supporting 8 post types, AI-powered content generation via Gemini API, and an admin panel for management, analytics & CRUD operations.
- Integrated a space shooter PWA game, comment system, likes/dislikes, search, and responsive design, achieving 40% faster load times through image optimization and lazy loading.

### Blood Donation Website

02/2024 - 03/2024 Online

https://adityauniversity.in/blooddonation

A web platform facilitating blood donation

- Engineered a responsive blood donation portal using React and Bootstrap, enabling seamless user registration, donor data tracking, and form submissions for over 500 active participants across devices.
- Integrated animated, stepwise form components and optimized backend operations using efficient queries and schema design, resulting in 35% faster database response time and significantly improved user data accuracy.
- Added mobile-friendly design and multi-device compatibility, ensuring 100% accessibility for users across smartphones, tablets, and desktops.

### E-Commerce Website

05/2024 - 06/2024 Online

https://e-commerce-b8pf.vercel.app/

- An online store featuring diverse product collections
- Designed an e-commerce platform with React.js, Bootstrap, and a backend system to manage user authentication, payments, and over 100+ categorized products efficiently
  - Revamped the purchasing experience using refined UI/UX, resulting in a 50% boost in user retention and extending average session duration to over 5 minutes

### Playground API Studio

08/2025 - Present Online

https://app.pageengineer.com/

An Interactive Platform for API Testing

- Built Playground API Studio, a Postman-like tool handling 50+ requests per session with GET, POST, PUT, DELETE, auth tokens, history, and JSON import/export.
- Created backend featuring 10+ demo endpoints, live response viewer, and code generation in 4 languages to boost usability.
